

COMPREHENSIVE LEADERSHIP ADVISORY GROUPS

A dynamic collaborative environment designed to support the owners/chief executives of growing entrepreneurial-minded organizations.

What Should You Expect From Your Participation?

- The value of having your own personal advisory board
- Access to diverse real-life experiences and perspectives
- Resolution to key issues
- Greater levels accountability and commitment to decisions
- Fewer gaps in knowledge through sharing of best practices
- New tools to bring into your business
- Long-term relationships with your peers
- A business that is worth more on exit

Structure

Quarterly full day roundtable sessions include collaborative roundtables focused on participant's key issues, educational programs, sharing of best practices, goal setting and leadership development.

Quarterly one on one leadership coaching sessions provide greater clarity in direction, clarification & prioritization of key objectives strategically & tactically, identification of resources, alignment between professional & personal goals.

In-between session dinners are utilized to stay connected & held accountable to agreed upon goals.

Annual multi-day strategic retreat is an intense business strategic & planning session. The businesses will be reviewed from all perspectives including; sales, marketing, operations, human resources, finance, leadership and management. Gaps will be identified and action plans will be created to close those gaps and move the business forward.

Who Should Participate?

*Business Owners, Partners, Chief Executives of small to mid-size companies with a **strong belief** in learning as a life-long process. The Comprehensive Advisory Group is offered to those **business owners** who seek a collaborative environment that offers a great degree of depth, support & **accountability** in their relationship with both the SoundBoard Team and the other peer members. This level of participation provides an **intense focus** on every aspect of an individual business.*

Our Leadership Philosophy: *While much of what is written, taught and professed about Leadership typically portrays the Leader as a solitary figure possessing certain traits and characteristics, it is our belief and passion that true Leadership is collaborative; a shared responsibility! It embraces a set of principles, primary of which is to tap into the full talents and experiences of the people that drive the organization. When integrated into and embodied by an organization, these principles help improve motivation, produce greater degrees of productivity and ultimately lead to better bottom line results.*
